Over 10 Thousand Articles On Education, Media/Entertainment, Trends/Studies and Youth Ministry

Thank you for the opportunity to share what God is doing through [TheYouthCultureReport.com](http://TheYouthCultureReport.com) and Vision 2 Hear ministries. The Youth Culture Report has expanded to include readers in 181 countries. Many of these countries are located within the 10/40 window which gives our website opportunities to provide evangelistic and discipleship resources for church leaders and unreached

people. Last week we targeted the country of India by running a Facebook and Twitter geographic campaign. During that same time George Lockhart who is part of our ministry was in Vijayawada India ministering at several churches, schools, and orphanages. India has been on my heart for many years; I am glad we are able to begin a ministry partnership there.

Our ministry ran week long mission camps in Atlanta and Miami ministering to children and teens. One of the purposes of these camps was to provide discipleship for student leaders who helped run the camp. We also continued the ministry of Teen Valley
